“PRIZE POULTRY”

Postcard No. 3136

By Appointment

Old English Game. This is one of the oldest varieties of poultry, one that has been heard of by all, whether they are poultry fanciers or not. They have always been bred to produce strong muscular birds, and at the same time to be very quick in their movements. In the days of cockfighting, the male birds had their flight feathers, hackles, and tails trimmed, and steel spurs fastened over their natural spurs. The pair of birds illustrated are black-breasted reds.
